# GEJALAKSHMI M

Data Analyst | Python | SQL | Power BI | Excel
+91 88254 40076 | gejam2022@gmail.com | Tiruvannamalai, Tamil Nadu, India
LinkedIn: gejalakshmi-murugan | GitHub: Gejalakshmi02

## PROFESSIONAL SUMMARY

AI & Data Science graduate skilled in SQL, Python, Excel, and Power BI for data analysis and business intelligence. Experienced in data cleaning, exploratory data analysis (EDA), and dashboard development using Power Query and DAX, with hands-on exposure to Pandas and NumPy through academic projects and internships. Seeking a Data Analyst / Data Analyst Fresher role to apply strong analytical and data visualization skills to generate business insights.

## TECHNICAL SKILLS

**Data Analysis & BI Tools:** Power BI, Power Query, DAX, Microsoft Excel, Snowflake

**Programming & Query Languages:** SQL, Python, Java, C++, HTML, CSS

**Data Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

**Core Competencies:** Data Analysis, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, Predictive Modeling, Machine Learning, Problem Solving

**CS Fundamentals & Tools:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Flask, Git

## WORK EXPERIENCE

**Machine Learning Intern |** *Yellowmatics.AI, Coimbatore* **2025**

- Performed data preprocessing and feature engineering in Python to prepare real-world datasets for model building.
- Used Pandas, NumPy, and Scikit-learn to conduct data analysis and build predictive models.
- Applied machine learning concepts to real-world datasets, supporting model development and evaluation workflows.
- Collaborated with team members to improve model performance and workflow efficiency.

**Software & Machine Learning Intern |** *Cybernaut Trio Tech Internship, Cybernaut Edu-Tech, Chennai* **2024 - 2025**

- Built machine learning applications, including Credit Card Approval Prediction and Fake News Detection, using Python.
- Developed web scraping applications for Amazon and Indeed to collect and structure real-world data.
- Gained practical experience in data analysis, software development, and web development through project-based learning.

## PROJECTS

**BlinkIT Sales Analysis Dashboard** | Power BI, Power Query, DAX, Microsoft Excel

- Developed an interactive Power BI dashboard to analyze sales performance, outlet performance, and customer satisfaction.
- Performed data cleaning and transformation using Power Query, and created KPIs and business reports using DAX.
- Generated actionable insights through interactive dashboards to support data-driven decision-making.

**Restaurant Analytics & Business Intelligence Web Application** | Python, Flask, Pandas, NumPy, Matplotlib, HTML, CSS, Git

- Built a full-stack Flask web application to analyze 51,000+ restaurant records.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) to uncover business trends and customer preferences.
- Designed an interactive analytics dashboard with 9+ visualizations, restaurant search, and user authentication.
- Implemented a responsive web interface for seamless user experience.

**Fake News Detection System** | Python, Flask, Scikit-learn

- Developed a machine learning model using PassiveAggressiveClassifier, achieving 93.6% prediction accuracy.
- Applied TF-IDF vectorization for text feature extraction and preprocessing of news article data.
- Built a Flask-based web application for real-time news prediction and model deployment.

## CERTIFICATIONS

- IBM JavaScript Developer - Coursera **2024**
- Java Programming - NPTEL **2023**

## EDUCATION

**Bachelor of Technology - Artificial Intelligence & Data Science | Mahendra Engineering College, Anna University** **2022 - 2026**
CGPA: 8.63 / 10

**Higher Secondary Certificate (HSC) | Government Higher Secondary School, Karapattu** **2020 - 2022**
Percentage: 7.5 / 10
